UNIVERSITY OF PITTSBURGH

School of
**Information** Sciences

Library and
Information Science Program

A master's degree offered through **Pitt Online**
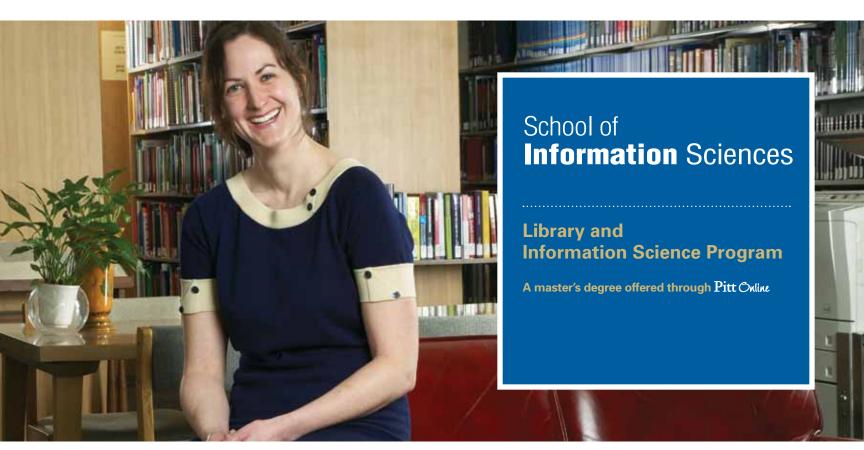

www.ischool.pitt.edu/online-mlis

The Master of Library and Information Science (MLIS) Pitt *Online* program is designed to meet the needs of those seeking to earn the MLIS degree without having to relocate to the Pittsburgh campus. You can earn the American Library Association-accredited MLIS degree from one of the most recognized programs in the United States while remaining at home and in your current job.

Upon completion of the MLIS degree, graduates will incorporate the knowledge, skills, ethical foundations, and social responsibilities of the information professions into professional practice.

As an online student, you will enjoy many of the same Pitt amenities and resources as students attending classes on campus. You'll have access to an academic advisor; 24-hour, seven-day-a-week technology support; and the collections and services of the University Library System.

Even though the program is asynchronous, you will have ample opportunities to interact with faculty and your peer students. Your classes will be provided online through Blackboard, a user-friendly learning platform. We provide a suite of collaborative tools such as discussion boards, blogs, chat sessions, virtual classrooms, and groups to ensure that you will experience a vibrant learning environment.

For more program information, please visit www.ischool.pitt.edu/online-mlis. If you have any questions, please feel free to contact us at lisinq@sis.pitt.edu or 1-800-672-9435.
